ENDONASAL ENDOSCOPIC APPROACHES

February 16th to 18th 2023

Director: Prof Aldo Stamm

Co-Directors: Prof. Leonardo Balsalobre and Prof Miguel Tepedino

Local Faculty: Dr. Francisco Moreira da Silva, Dr. Paulo Gonçalves, Dr. Vítor Oliveira

Local: Instituto de Anatomia da Faculdade de Medicina da Universidade de Lisboa

16 FIRST DAY

08:00 am - Welcome

Theoretical Sessions

08:30 am - Anatomy of the Nose, Paranasal Sinuses and Skull Base / Aldo Stamm

09:30 am - Epistaxis - Breaking Paradigms / Miguel Tepedino

10:00 am - Inferior Turbinate surgery / Leonardo Balsalobre

10:30 am - Coffee Break

11:00 am - Endoscopic DCR - How I do - Leonardo Balsalobre/Francisco Moreira da Silva

11:45 am - Frontal Sinus Surgery / Aldo Stamm

12:15 pm - Lunch at the Institute

Practical Session

Demonstration followed by Dissection by the Participants

01:00 pm - 05:00 pm

- Anatomical Dissection
- Turbinate Surgery
- Sphenopalatine Artery Ligation
- Maxillary Sinus Surgery
- Frontal Sinus Surgery (Draf 2A)

05:00 pm - End of the first day

17 SECOND DAY

07:45 am - Check-in

Theoretical Sessions

08:00 am - CRS Surgery – One Cavity Concept / Leonardo Balsalobre

09:00 am - How to Approach Revision Surgeries? / Aldo Stamm

10:00 am - Coffee Break

10:30 am - Endoscopic Approach of Benign Tumors / Miguel Tepedino

11:00 am - Pterygopalatine and Infratemporal Fossa Approach - Miguel Tepedino

11:30 am - Inverted Papillomas and Adenocarcinomas: Our Experience - Paulo Gonçalves

12:00 pm - Lunch at the Institute

Practical Session

Demonstration followed by Dissection by the Participants

01:00 pm - 05:00 pm

- Anatomical Dissection
- DCR
- Sphenoethmoidectomy
- Approaches of the Sellar Region
- Making the Nasoseptal Flap

05:00 pm - End of the second day

18 THIRD DAY

07:45 am - Check-in

Theoretical Sessions

08:00 am - Endoscopic Approach of Malignancies / Miguel Tepedino

08:45 am - Advanced Frontal Sinus Surgery - Vitor Oliveira

09:15 am - CSF Leak and skull Base Reconstruction / Leonardo Balsalobre

10:00 am - Coffee Break

10:30 am - Orbit Surgery / Miguel Tepedino

11:15 am - Transnasal Endoscopic Pituitary Surgery / Aldo Stamm

12:00 pm - Lunch at the Institute

Practical Session

Demonstration followed by Dissection by the Participants

01:00 pm - 05:00 pm

- Anatomical Dissection
- Middle Maxillectomy and Pterygopalatine Fossa Approach
- Advanced Frontal Surgery Draf 3
- Orbital Decompression, Superior Orbital Fissure, Cavernous Sinus

05:00 pm - End of the third day – Delivery the Certificates
